FOREWORD

THE democratic world movement now in progress has not failed to make its impress on the vital issues of Art. It manifests itself perhaps most conspicuously in the astonishing advance and development of methods of pictorial reproduction. Hitherto the unique quality of a work of Art has been significant and dealers still guard jealously the importance of this fact in furthering their sales.

Now the democratic tendencies demand more and more that Art shall be made for the people—and brought within the means of the greater number.

On this account artists of our time are giving serious attention to the various reproductive processes—Engraving, Lithography and Etching. All these processes, originally invented through the genuine need of the artist, have been more or less abused and mishandled by commercial uses and in turn neglected by the artist. The beauties and possibilities of these methods remain practically unknown to the public—and although it is a difficult task to reinstate them to the high position they deserve in the Arts, great strides have already been made both here and in Europe towards their firm re-establishment.

The men whose names are here appended, working in the various media of artistic reproduction, have formed an association called the Society of Canadian Painters-Etchers. It is the intention of this group of men, together with such new workers eventually elected to the Society, to continue and develop in Canada the great tradition of the artist-print in its many phases—the tradition born of such men as Dürer, Holbein, Rembrandt, the great Japanese, Hokusai, Hiroshige, etc.

It is the purpose of this Society to hold exhibitions of prints of contemporary Canadian artists (original Engravings, Lithographs, and Etchings) in all the large cities of Canada.

ALGOMA SKETCHES AND PICTURES

By J. E. H. MacDonald, A.R.C.A.; Lawren Harris,
Frank H. Johnston

THE smaller works of this collection were made on a sketching trip along the line of the Algoma Central Railway, during the last three weeks of September, 1918.

As the country is quite unsettled, and has no boarding accommodation, the artists travelled and lived in an old freight car, fitted with a stove, bunks, etc. The car was left on different sidings where the country was especially picturesque and characteristic. Three stops were made, the first and most northerly at Canyon, 113 miles north of Sault Ste. Marie, then at Hubert, then at Batchewanna. The sketches are arranged approximately in the order of their production, and the advance of the Fall may be noted by comparing the sketches made at the different points. The weather was very wet at first, but some work was done, rain or shine.

The larger pictures shown were painted at home after the trip, some of them as efforts to reproduce, with deeper truth of feeling or character, a representative scene sketched and studied on the spot. Others were painted as imaginative summaries of impressions made by the country on the mind of the artist.

The whole collection may be taken as an evidence that Canadian artists generally are interested in the discovery of their own country. Too often their work is ridiculed by the ignorant, and criticized adversely by an unsympathetic narrowness of mind, as though it had no traceable connection with Nature.

WILLIAM CRUIKSHANK,
R.C.A.

WILLIAM CRUIKSHANK, R.C.A.

MR. CRUIKSHANK comes of a family of artists, and is a great-nephew of the famous caricaturist, George Cruikshank. He was born in Scotland at Broughty Ferry, near Dundee; studied at the Royal Scottish Academy in Edinburgh and the Royal Academy Schools in London, and the Beaux Arts in Paris.

Coming to America, he first settled in New York, where he is credited with having introduced pen drawing with broad line to the continent and having established a nucleus round which grew the Art Students' League.

He came to Canada in 1871, and identified himself with the Ontario Art School—now the Ontario College of Art—and has continued his connection with it to the present time.

His important works in painting represent Canadian subjects, such as "Breaking the Road" and "The Sand Pit"—both in the National Gallery at Ottawa; "Hauling the Mast" and "Plowing, Lower Canada"—both in the present exhibition. Another aspect of his work are his portraits, several of which are represented. A great number of his pen drawings have been presented by him to the Art Museum.

1. Plowing, Lower Canada. Medal, Pan-American Exposition
2. Hauling the Mast. Lent by Brig.-Gen. Sir Henry Pellatt, C.V.O.
3. Portrait—Late William Boulton. Lent by Mrs. W. M. Boulton
